BUS-SCS external indicator display panel

Cat. No(s): 0 487 75/85
FL4650/50W/60

CONTENTS

1. DESCRIPTION

This is an indicator display panel located outside the room (in the corridor) displaying the housekeeping information:
- Do Not Disturb
- Make Up Room
- Extra service (for example Pick up laundry) (only on configured version Cat. No. 0 487 85/FL4660)

It also has a "call bell" touch-sensitive button which flashes for 3 s to show that the command has been recognised.

The "call bell" indicator status shows whether anyone is in the room: on if someone present, off if no one present.

If the DND function is enabled, the "call bell" relay is disabled. When pressed, the DND LED flashes, but the "call bell" indicator does not flash.

Alarms are signalled by the flashing "call bell" indicator. This visual alarm function is only available for SCS installations which include the MH201 device, and can be configured with the MyHotel_Suite software available on the website www.homesystems-legrandgroup.com.

This product is also available for IP installations which include controller Cat. Nos. 0 484 08/12, and can be configured with the Hotel Room Configuration Software available on the website www.legrandoc.com.

2. TECHNICAL CHARACTERISTICS

|	
BUS/SCS power supply:	18 - 27 VDC
Standby consumption:	6 mA
On-load consumption:	8 mA max
