Product description

- Single battery emergency light with 3 hour emergency light duration and 25 m (DIN) viewing distance for wall mounting with self-control feature (SC) and fail-safe contact (opens if power fails)
- Additional remote control connection (F+, F-) for disabling emergency lighting when building is not in use
- · Function test and self-control feature can be enabled using conventional test key or conveniently using the Mobil-SLi remote control
- The single-battery emergency light includes a continuous and a stand-by mode
